Welcome to Future Factory

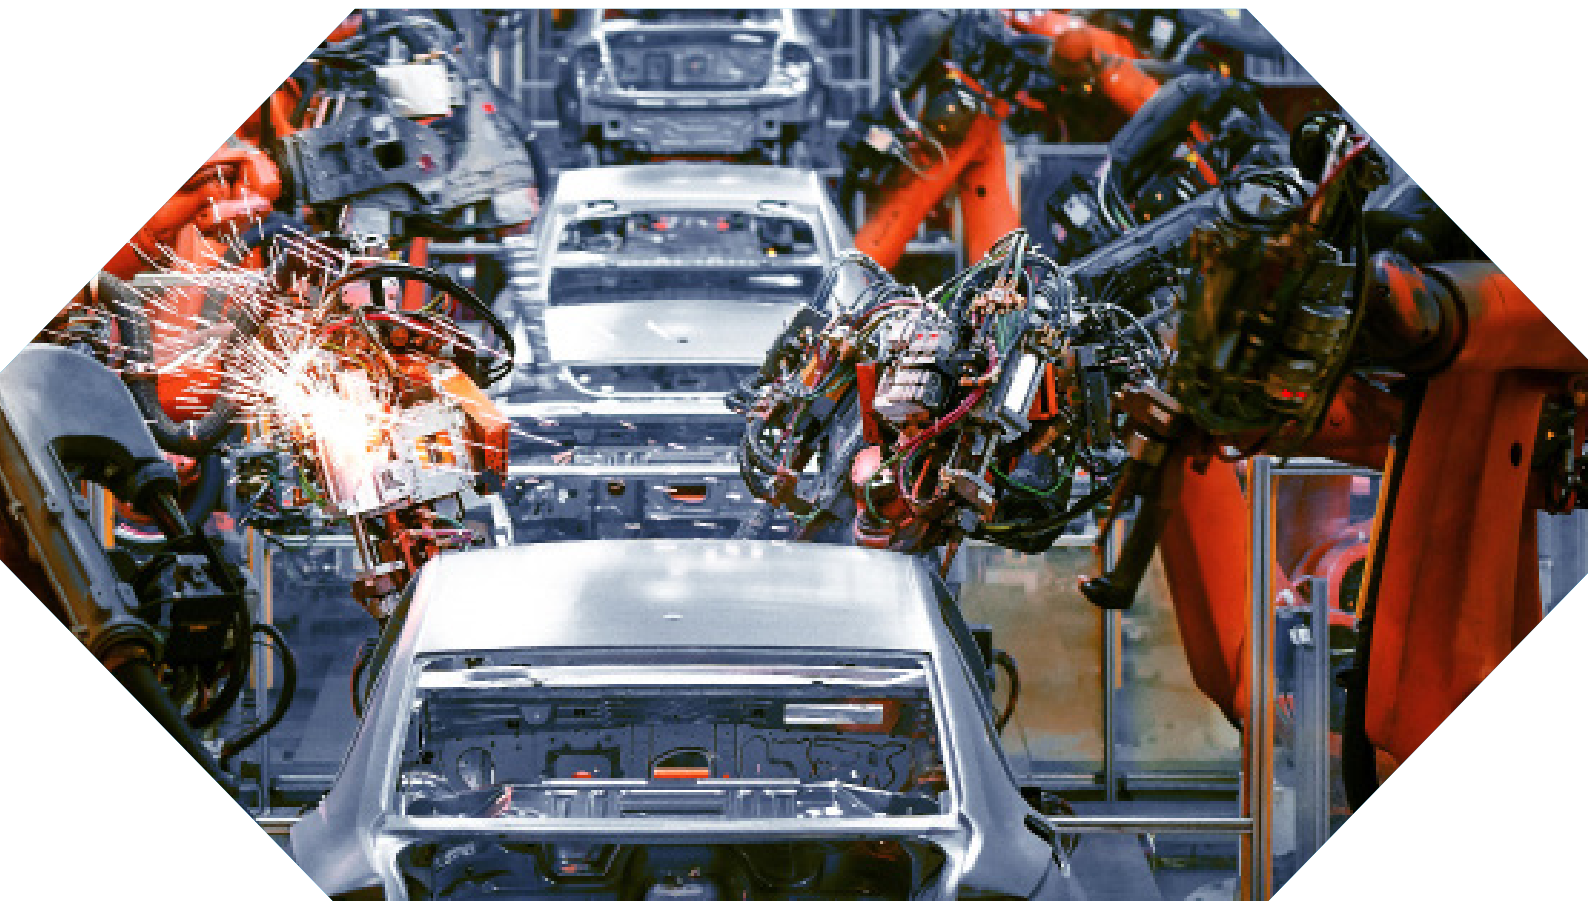

India's industrial output growth rate is directly proportionate to the speed at which the country's manufacturing segment adopts smarter manufacturing methodologies. In today's manufacturing landscape the thin line between digital and engineering solutions is fast evolving giving way to a new landscape where the two fields are closely intertwined. Our manufacturing workforce faces a new dilemma of "Digital Tools and Analog Minds".

Future Factory is all set to provide a unique platform to learn and adopt smart automation and digital manufacturing technologies, which will be a critical requirement in reshaping India's manufacturing landscape.

Join the leaders

Messe Frankfurt and Thinc are leading trade fair organisers with expertise in the fields of Manufacturing technology, Automation and Digital disruption. In response to the growing requirement for a singular platform where industry can converge, learn, network and acquire these critical solutions, Smart Industry Solutions featuring Future Factory was created. The first edition held in 2017 welcomed key speakers, dignitaries, leading exhibitors and prominent visitors in large numbers from the automation industry on a single platform.

The upcoming edition of Future Factory is all set to establish itself as a leading confex on convergence of IT and OT from 22 – 23 November 2018 at The Grande, Bombay Exhibition Center, Mumbai.

Conference agenda

Get updated with the latest industry trends on Human Centric innovation, Integration of IT & OT and Automation intelligence at the exclusive conference with the industry experts.

Day 1 – 22 November 2018

09.15 – 10.15	Welcome breakfast & registration
10.15 - 10.45	Inaugural address
10.45 - 11.30	From connected manufacturing to connected vehicles – connecting the dots. Keynote and panel
11.30 – 11.50	Tea break
11.50 – 12.15	Human centric innovation success stories from the automotive industry
12.15 – 12.45	Q&A
12.45 – 14.30	Networking lunch and expo tour
14.30 – 15.15	Discovering innovation – panel and keynote from chosen startups showcasing new solutions that made their market entry in 2017/2018
15.15 – 16.00	In this together – collaborate to innovate. Heads of IT and Manufacturing jointly present success case studies
16.00 – 16.20	Tea break
16.20 – 17.00	Human centric innovation stories from the discrete manufacturing segment
17.00 – 17.20	Round up of day one – focus on key outcomes. Q&A
18.30 – 21.00	Cocktails and networking dinner

Day 2 – 23 November 2018

09.30 – 10.15	Welcome breakfast
10.15 – 10.45	What will industry 5.0 Look like - keynote
10.45 – 11.30	The smart manufacturing tool kit – what are the essential components in the smart CXO's tool kit?
11.30 – 11.50	Tea break
11.50 – 12.35	Human centric innovation success stories from the supply chain sector
12.35 – 12.50	Q&A
12.50 – 14.30	Networking lunch and expo tour
14.30 – 15.15	Discovering innovation – panel and keynote from chosen startups showcasing new solutions that made their market entry in 2017/2018.
15.15 – 16.00	Open mike – “been there done that, got the t shirt” experts answer the audience’s questions on what their success has taught them about smarter manufacturing.
16.00 – 16.20	Tea break
16.20 – 17.05	Wrap up and a look at the key takeaways of Day 2

Exhibitor Profile

IIoT

Sensors

Cloud services

Data and Analytics

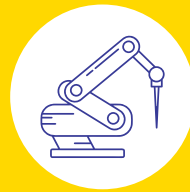

AR, VR &
Mixed Reality

3D Printing &
Prototyping

AI and M2M

Factory Automation

Mr. Dattatreya Gaur

Vice President, Robert Bosch
Engineering and Business Solutions
Private Limited (RBEI)

Future Factory presented colleagues in the industry with a one-stop shop to learn, network and acquire partners in implementing future ready manufacturing practices. The advisory body will continue to guide the organisers every step of the way to ensure that each edition of the event is packed with innovation, live learning exhibits and disruptive content. I invite you to experience the "Factory of the Future" at Future Factory 2018.

Delegate Profile

Industry

Discrete manufacturing
Automotive OEMs
Automotive Component manufacturers
System integraters & EPC
Machine builders

Designation

Manufacturing CXOs
Plant and factory heads
Plant managers
Project consultants
Infrastructure heads

Dr. Omkar Rai

Director General,
Software Technology Parks
of India (STPI), Ministry of
Electronics and IT

The Software Technology Parks of India (STPI) always has and will support and promote technology innovation in India. Future Factory gives us all an opportunity to reshape India's manufacturing sector from partly analog to digital, and STPI is proud to be part of the advisory body and co-host Future Factory in its first year with the focus to showcase the best in technology for smart manufacturing and create factories of the future each year.

Mr. Laxman Rao

Director and Leader -
Digital Transformation Office,
India and SAARC, CISCO

Cisco is very pleased to be a part of Future Factory. We have long been at the forefront of Digital Transformation globally and in India. This event has given Cisco a platform to spread awareness on Digital Transformation and how to implement it from basics. I wish them all the best for the next edition and look forward to it.
